The most comprehensive online learning resource for Health and Human Services organizations

The health and human services (HHS) industry is experiencing a period of unparalleled growth and change. Healthcare executives face high turnover rates, budget reductions, regulatory compliance and accreditation issues, and are challenged with new and innovative ways to increase staff productivity and satisfaction while reducing or maintaining costs. With this growth and change comes a management challenge, and Netsmart has the ideal resource to address it.

NETSMART UNIVERSITY: COMPLETE LEARNING RESOURCE

The Netsmart University hosted Learning Management System (LMS) enables organizations to create, deliver, manage, and track a variety of training options. With this innovative technology, courses can be taught in an engaging and interesting way that is easier for the learner and more cost effective for the organization.

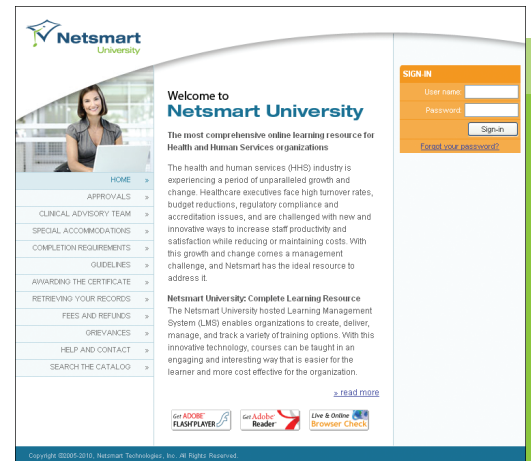

Netsmart University is a comprehensive suite of education offerings available from Netsmart Technologies, the leading provider of enterprise-wide software and training services to the HHS community. From classroom training to online eLearning, Netsmart University is the complete training resource to manage employee training and development. With Netsmart University, the same technology that powers the online classroom can be used to create a customized corporate learning center tailored for individual organizations.

ONLINE LEARNING CATALOG

At Netsmart University, a wide variety of courses can be taken online through a comprehensive catalog of course offerings. Netsmart University offers one of the largest online course catalogs for HHS organizations. A full catalog of over 400 off-the-shelf courses is available, including: regulatory and workforce courses, OSHA, HIPAA, clinical skills courses, employment law courses, soft skills and technology skills courses. Many of these offerings provide continuing education units (CEUs) for human services and health personnel.

BUSINESS BENEFITS

- Easily deploy both online and traditional classroom courses
- Achieve greater compliance with legal requirements
- Improve staff retention and productivity
- Assure secure and auditable record keeping

CORPORATE LEARNING CENTER

Netsmart University provides organizations of all sizes the ability create their own customized Corporate Learning Center. A personalized Corporate Learning Center provides a secure experience for organizations and learners to effectively create, manage, and track training, continuing education, certification and development initiatives. Organizations using Netsmart University have the benefit of a system set up to provide easily accessible information. Within their list of learning resources, learners can browse through multiple levels of information personalized a variety of ways.

INSTRUCTOR-LED AND CUSTOM TRAINING OPTIONS

Netsmart University also offers on-site, instructor-led classes and custom training for Netsmart product lines. The informal tone of the classes encourages individual participation, creating an atmosphere to learn from one another as well as from the instructor. Classes include extensive hands-on experience, which lets you apply and practice concepts as you learn them. Sessions are conducted by knowledgeable, experienced trainers.

The training can include topics beyond the scope of application technical training, such as:

- Design strategies for software utilization
- Conceptual framework of the software and the integration of its components into behavioral healthcare environments and organizational structures
- Not-for-profit financial systems
- Accounting basics

Netsmart also offers follow-up coaching to trainees on an as-needed basis once they are back in their agencies.

CONTACT US TODAY

Netsmart Technologies is an established, leading supplier of enterprise software and software as a service (SaaS) solutions for health and human services providers. More than 18,000 customer organizations, including 350,000 care providers and 40 state systems, use Netsmart products to automate key clinical, financial and management processes and help improve the quality of life for millions of people each year.

Netsmart has more than 30 years of experience, and offers comprehensive services and solutions for a variety of health and human services sectors, including Behavioral Health, Public Health, Substance Abuse, Methadone, Vital Records, I/DD and Social Services.

Netsmart provides solutions that help its customers meet the definition of "meaningful use" under the American Recovery and Reinvestment Act (ARRA) of 2009. These include use of a certified electronic health record, the InfoScriber e-prescribing service, the CareConnect service that enables the sharing of clinical information through health information exchanges, and a flexible platform to capture and share outcomes data.
